(Styles P)

If you in the struggle then I kno wat you goin thru
Nobody wanna be the body the bullet is blowin thru
Peep the shit that i'm showing you
If he dress like a girl wat type of man will he grow into
I'm like who done wrong in a New York club no New
York song
Got me stressed fuck around and puff a Newport long
If the young niggas is dumb niggas who taught wrong
If the old niggas is wack now who thought wrong
Who ever lose in the fight then you fought wrong
Better master ur craft the boys will blow a gat at ur
mask
For the cash on behave of the staff yea you went to
school but you ain't learnt the math you do no half of
the wrath
You can smile at the future or laugh at the past
Everybody ride till that mutha fucka crash
