[Intro: Raekwon]

Nothing but big geoses in here, kid...

[Raekwon:]

Rock your ship, black, million dollar man march rap  
Physically strapped, electrifying gats, flying at  
Rap herbals with verbals, kingpin's swerve out  
Styles 360 degrees, don't blur out  
Pass the word out, we don't bring dirt out  
Yo, swerving out, mass murder route, blaow  
Get up and work now, ya'll niggas feel jerk now  
Take your money back, fuck yours, I'm lookin' truck,  
still broke down  
Pass the smoke out, fly steaming hat, choked down  
Hailing from the throat down, six hundred dollar coke,  
baow!  
Last quote now, the don, Lexy float now  
Hope now, Atlanta big boat style, we float now  
Twist the flow Nile, the bitch tore down  
Get it right, the wrist roll down, fly sneaker nigga, low  
down  
Go down, lady dry ya blower out, casarole role, roll out  
The jack star, track, fold out  
Bone out, pound and a half'll blown out  
Half the bone out, halfway home, it's on now

[Chorus: Raekwon]

Aiyo, cats be telling on kids, now that's a lie, son  
Cats be telling on kids, do or die, son  
Cats that run with you, dumb out, puff blunts with you  
Cats be telling on kids, now that ain't love son  
Cats be feeling you, then what, be grilling you  
Cats be fronting on kids, Lex, you live, son

[Raekwon:]

Learn how to bust these, gemmed out, yo Killa lust  
these  
Try not to trust these, I'm six Guyanese, dust these  
Set up to fuck these, good luck, trees rolling out with  
rugbies  
You love these, certified thugs, blowing up g's

We all that, commissioner don rap, with the arm at  
Set up saloons, bring pawns where we want at  
Reward that, Oscar Award, applaud that  
We like Hardcastle and McCormack, set up the floor  
mat  
Splash four hat, Similac cats, tour rap  
Faggot-ville, where other reals won't ball at  
React tours that, Hillfinger drawers, Wu hat  
Relax do that, whoever boo trash, two at  
Beige or blue hat, suede wally shoe, lashin' Clue at  
White folks, come out your night clothes, sliding  
through that

[Chorus]
