Regardless, we all ninjas and got money
But the theme of the story
Is yo, checking how they came for me

Kinda brief from the gold teeth era
Bro dreaming on C.R.E.A.M.
Complimentaries and beef
I'm from the wild side
A militant was made by the foremost elite
It sound good, brung my rifle shit, clean

Met the others, lit a blunt, begin
I'm like Nicole Kidman in the wind
Niggas is wild, niggas is eat
Then I chanced it, blood can always beat mud
Mud is part of being thug
I guess it's advance, we from the street

This is me, I'm ready to beat, whatever, we gon' off it
One time alone, yo, they pricked up Unique
Meth standing there, rare hustler hair, right in front of
the building
Them niggas do them killings out there

This is deep, me, Rebel, U-G, he walked in the room
Scarf rap, pair of Timberlands, beat
This the potion, roll the scroll out, speaked and another
walked in
Knowing now this is a thief

We from the same voc's, this is like a pot roast
Hottest niggas who rhyme, I know them from the time
This is not 'posed to happen, Peace Black, we wasn't
cool
Threw the piece back, everything good, I lit the leaf,
captain

Got a mission to make sure the world recognize our
position
I'm standing near the kitchen
Shit just might work, I lit the stink, this could be the
realest shit

This could be the realest flip, quick

Everybody stand up in militant, army jackets down
I said to myself, this the realest clique
True champ, we gon' rep it through, keep it cool
No boot camp, no hard work, just some loot, family

All in, ball 'til you fall
Loyal as ever, I grab my leather
I'm a lay 'til you call

Generals, demons, nighttime, vultures
Caught up on the ropes, let's team it
Everybody seen it, Zenith, what you mean?
Everybody C.R.E.A.M. in, the all American dream

Generals, demons, nighttime, vultures
Caught up on the ropes, let's team it
Everybody seen it, Zenith, what you mean?
Everybody C.R.E.A.M. in, the all American dream

Generals, demons, nighttime, vultures
Caught up on the ropes, let's team it
Everybody seen it, Zenith, what you mean?
Everybody C.R.E.A.M. in, the all American dream, yeah
