And I wrap my arms around me  
And think of times gone by  
I used to share my fate with you  
Wrapped in a robe of fire

Inhale - exhale  
All that matters - torn to shatters

Having trusted you before  
Made my desolate past live again  
My earth-born spirit breath again

I will search forevermore  
Through the wind, the waves, the mist, the rain  
Your smile is in my tears again

Inhale - exhale  
All that matters - torn to shatters

And I drift through empty days  
I feel like a puppet on a string  
I hear the songs you used to sing

I count the seconds, time unwinds  
Walking in the shadows of my mind  
Dissolved in thoughts, I melt into you

But the years and memories wither into a scroll  
Unfathomed sorrow resonates within my soul

And from my heart, I'll pour this song,  
Of endless struggle, still it made me strong  
Because these roots of love  
Reach towards the sky

All that matters - torn to shatters

Having trusted you before  
Made my desolate past live again  
My earth-born spirit breath again

Silently I close the door

Pondering words I somehow cannot say  
Shutting the world far away

But the years and memories wither into a scroll  
Unfathomed sorrow resonates within my soul

And from my heart, I'll pour this song,  
Of endless struggle, still it made me strong  
Because these roots of love  
Reach towards the sky

Set me on fire with your glow  
Feels like nothing I have felt before  
Earth's lost its balance I can fly
