[Raekwon:]

Days that fly through the mist, so young and so rich  
Powerful minds, the lines get intense  
Wall to wall, cats in hell, so many trapped lost  
Some will prevail and get clapped off in jail  
Families mentally dyin', the roads is narrow  
Jump out, bow and arrow, hit you with science  
Huh, we've been livin' this daily  
The wiz know what it is, that's why the vision is more  
clearly  
War between money and lust, trust me, I hit enough  
dust  
Suade fronts, color schemes, truck rings, stuck kings  
Suade fronts, Balley's and blunts  
Living amongst thieves, all we did was robbin', we won,  
Marvin

[Outro: Marvin Gaye sample (Raekwon)]

Hey baby, what you no good? (That's right lord)  
And trusted and back with, it's me I want  
(Niggas gotta cut this faggot millennium shit out right  
now)  
War is hell (War is hell, and get real with life)  
And will it be (start teachin' ya'll brothers, man)  
When will people start gettin' together again
