Don't take it personal, it's only music
Holla at me, yo, yo, ice water, yo, yo, yo, yo

Try me, PC'll put a clip in a nigga
Fuck a hole, my bullets'll dig a ditch in a nigga
Listen, I've been reppin', only pack big weapons
One shot to the stomach, you missin' ya midsection

I'm off the wall, dog, I could off ya balls
Stick his ass to the rooftop, toss 'em off
Hit the ave with the rooftop off the porch
I get money 'cuz it costs to floss, nigga you feelin' me?

And if not then fuck what you gotta deal with me
I'm only here for a minute but haters wanna get rid of
me
PC creep with at least three heats
And a shotgun stashed underneath the backseats

You niggas actin' like you don't feel a draft
You seen ya man, tell him I'ma kill his ass
And I don't, wanna talk I want a mill in cash
I come through 'tards shittin', lookin' ill in the past

'Cuz it's the, ice water, don't get it confused
And one false move'll cause me to spit at you dudes
It's stumic, motherfucker and I'm pickin' ya food
And ain't no one out you know that my niggas'll do you

Let's spit on 'em, rush these niggas
[Incomprehensible] dead with a punctured liver
Only kid in the hood with a mustard ninja
Heard you broke down good, well I fucked ya sister

Eh yo we wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club
Talk slick and get the four pound in ya mug

Yo we wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club

Talk slick and get the four pound in ya mug

Yo I keep my gun on me, what the fuck y'all want from me?

Y'all touch my property somebody gon' die, uh huh
This ain't no joke, it's for real, my niggas they totin'
they steel

All it takes is a phone call and they ready to ride

Eh yo the cards are dealt, the words are spoken
Nigga, welcome to the hell, the gates is open
Gatekeeper, first degree murder through the speaker
Who deep enough to flow with the reaper?

Stuck in the middle, I spit a little riddle
Leavin' niggas crippled, my niggas ball 'em like Kerry
Kittles

You niggas makin' it hard, it's really kinda simple
If a nigga gotta pull it out I'm puttin' it in ya temple

Official I do this, rude maneuver
I use the rugers to keep the bullets movin' through ya
Weak anatomy, fuck the small talk and flattery
Ya power is weak, to beef you need much more
batteries

Keep it genetic, or dead it, ice water inc we said it
Whoever so-called did it or said it, promote it and
spread it

Fake it or front it, get ambushed and confronted
With slugs in ya head, back, chest and stomach

Niggas don't want it or ask for it, so we give it to 'em
dead in the club

And let them things spit and rip through 'em dead in
the club

Is you gon' fuck around and be the nigga dead in the
club?

Eh yo we wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club
Talk slick and get the four pound in ya mug

Yo we wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club
Talk slick and get the four pound in ya mug

Egyptian look, gazelles on, L's lit, this how it's goin'
down

Ski mask, channel shit, move like a terrorist click
Nineteen eighties babies, worldwide, ya girl on our dick

All you know is Rae look good, he hood, envision the
flips

I make money like them niggas who take money
Fresh out the can, Duran look, astro van
The ill Castro, rap son of Sam

More rugers, more bow and arrows still no losers
Forty five dollars ahead, I go at niggas shootin' lyrical
leads
Stop absorbin', break shit knock that gay shit out ya
head

Wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club
Talk slick and get the four pound in ya mug

Yo we wyld in da club, style in the club
This is for my niggas gettin' down in the club
At the bar throwin' down rounds in the club
Talk slick and get the four pound in ya mug
