You are not alone tonight  
The reason you can't sleep is lying next to you  
You are afraid you'll die  
A dull pathetic life scares the hell out of you  
You wet the bed with tears and sweat  
The bastard on your side turns away from you  
You regret the life you led  
Keep thinking of a way there's nothing you can do

But in the dark of night a flashing light  
A sudden pain in the back of your mind  
You've now reached the other side  
A satanic force fills your spine

I am pure evil - six six six  
Your download pleasure - I play the tricks  
Play the tricks I am your provider  
I'm your private kick  
I am your provider

You have called me, lustfull whore  
Seek the thrill, christian sworn  
Now push enter, open the door  
Seek the pleasure, the highest score

Deeper and deeper I creep in you flesh  
We howl at the moon as if we were beasts  
I lick the sweat from your breast  
We unite in this satanic feast
