Aah, talk to me

Once we used to be close together
Closer than a bolded chain
We shared good and even better
Lots of laughter, sometimes pain

Still you stand here
Yet you're thousands of miles away

Talk to me, please talk to me
Say the words I would like to hear
Talk to me, please talk to me
Save our love, save a life and take away all the fear

Once we had the world to discover
And together we were strong
Is there something left to recover?
Could you tell me what went wrong?

Where's our love gone?
Like a candle it burned away

Talk to me, please talk to me
Say the words I would like to hear
Talk to me, please talk to me
Save our love, save a life and take away all the fear

How could this end?
Like some driftwood love will astray
Please won't you reach out
Won't you reach out and save our love

Talk to me, please talk to me
Say the words I would like to hear
Talk to me, please talk to me
Save our love...baby take away all the fear

Oh yeah
Talk to me
Save my life
Talk to me

Ooh
Talk to me
You better, better talk to me
You better, better talk to me

Save our love
Save my life
Take away the fear
