Hello there, how was your day?
Sorry that I'm was away.
Hello there, how is the weather?
Sorry I'm not there to play....
I'm trying just to make it better for you
I know it's harder to understand

I'm always gonna love you
I promise you, I promise
I'm always thinking of you
I promise, I promise you

Hello there, why are you crying?
I know you're trying your best.
To be good now for your mother
Hold her and tell her and you're gonna be OK.
I never meant to make you feel so bad.
Hope someday you'll understand

I'm always gonna love you
I promose you, I promise
I'm always thinking of you
I promise, I promise you

I swear I'm gonna make it up to you
I know someday you'll understand

I'm always gonna love you
I promise you, I promise
Always thinking of you
I promise you, I promise
