Never, never ending
Constant motion, constancy
Forever complicated,
Never silent, never for me

Never, never for me
Always overkill, yeah
Never, never for me
Always overkill

Open to possibilities
however unlikely
Nothing quite convincing
As a moment of peace

Never, never for me
Always overkill, yeah
Never, never for me
Always overkill

Ever patient, relaxed and floating
Falling heavens are lost in orbit
Passing nature, calming faces
Celestial bodies are wondering, silent

Never, never for me
Always overkill, yeah
Never, never for me
Always overkill

Nothing quite convincing
As a moment of peace
