See these people like me, living in this dirty place

Feel this deep depression in these streets that lame the
brain

It kills the will that drives me on

'Cos where's no hope all power's gone

Why am I here? a senseless birth

I'm not afraid to leave this earth

Heal these hollow eyes that keep on staring at these
walls

Fill the empty space that's in these heads where chaos
crawls

'Cos from the mud there comes disease

A new born hate disturbs the peace

A fatal end to all my grief

I've lost my pride, my self belief

I get my food from an unknown hand

I did nothing for it, understand

Ref:

Still I'm waiting for a reason that could make a
difference but

this is another wasted day

Give me something to rely on, I don't know where I am
going

This is just another wasted day

Hear this voiceless calling in a world of noisy gear

Find the answer for a human child why it is here

'Cos from the mud there comes disease

A new born hate disturbs the peace

A fatal end to all my grief

I've lost my pride, my self belief

Not only out of work, we're out of all

It seems this world's for us all too small
