Hunt you down hunt you down ooh  
Ooh I am justified by higher laws  
My society gives me right to force  
If you put shame on a family for the honour  
Your blood sets me free set me free  
Try to hide make my day  
I'm the hunter and you are my prey  
Time to die kneel and pray  
I'm the hunter and you'll die today die  
Since the stoneage we have lived this way  
We ignore what you achieved today  
These traditions we will never clear  
Men can rule while women live in fear live in fear  
Try to hide make my day  
I'm the hunter and you are my prey  
Man and wife for all your life  
I'm the hunter and you are my prey  
I'm the hunter and you are my prey  
No one else shall see your face now no more  
Hunt you down hunt you down  
Try to hide make my day  
I'm the hunter and you are my prey  
Man and wife for all your life  
I'm the hunter and you are my prey  
Try to hide make my day  
I'm the hunter and you are my prey  
I'm the hunter and you are my prey uh  
Ooh hooh hooh hooh huh huh huh huh huh huh
