"Nevermore"

Her mother told her everyday, "Never lose control
Whatever then may come your way, a good girl takes it
all"

And all the years, she held her peace and followed
every rule

But then depression dried her heart and now she's
screaming out

Nevermore, never we'll forget
Nevermore, one day you'll regret

He used to be a follower and did what he was told
Whatever they squeezed out of him, a good man bears
it all

But one day he was in their way, did not fit in their plan
They tried to kick him from the boat and now he's
screaming out

Nevermore, never we'll forget
Nevermore, one day you'll regret
Nevermore, never we'll forget, no

Never we'll forget, no

He used to be a follower and did what he was told
Whatever they squeezed out of him, a good man bears
it all

Nevermore, never we'll forget
Nevermore, one day you'll regret

Nevermore, never evermore
Nevermore, never evermore
Nevermore, never evermore
Nevermore, never evermore
