Misty veil  
Night's falling  
On dirty streets  
Before the storm

-----  
Who's such a fool to destroy himself?  
Who still believes he could rule the world?  
But after all,  
they invent the ultimate war machines  
declaring war on the world from space, a star war  
Tell the world it's protection, nothing can go  
wrong they wouldn't ever confess  
what their real intention is  
Before the storm, we're prepared for the fall  
So many lives with no future at all  
Before the storm, now they chime in the end

Death and destruction will come from their hands  
Shake hands and smile in the camera's eye  
But coming near there's eagerness in their eyes  
They are under the command of hunger for the gold  
The poisoned sting of power jabs  
in their veins like a bolt  
(Repeat 2nd verse)  
(The secret affair) We don't know what we know  
(The secret affair)  
The tradition of death must go on  
Tell the world it's protection, nothing can go  
wrong they wouldn't ever confess what their real  
intention is (Repeat 2nd verse)
