I'm stepping out, let me warn you  
No longer keep it inside  
So full of rage and frustration  
It's gonna come to the light

I'll spread my wings, don't stop me  
I'm breaking out

Terrified, tantalised  
Stuck in this mental horror  
I don't longer hide what's in my mind  
Terrified, hypnotised  
From what I fear so much, now  
I root out what keeps me terrified

Too long I had to endure it  
It made me sick, wore me out  
I nearly lost all my fire  
Forgot what it's all about

I might be scared, whatever  
I'll spread my wings  
I'm breaking out

Terrified, tantalised  
Stuck in this mental horror  
I no longer hide what's in my mind  
Terrified, hypnotised  
From what I fear so much, now  
I root out what keeps me terrified

I'll spread my wings  
I'm breaking out
