[Music & Lyrics: P. Wagner]

No way out - Suicide  
No way out - Suicide

Help me, I must reach the border  
I run from the keepers of order  
They have locked me up just for nothing

Help me I'm down by law  
Help me I'm down by law  
Watch out, they're at your door  
Help me, I'm down by law

Autumn - The time of darkness and decay  
Life's running shorter day by day

Winter - Has gripped the land in cold caress  
He's all alone and deeply depressed, she's dead

Don't you fear the winter, I will keep you safe  
And warm  
Don't you fear the winter, nothing's gonna  
Do you harm  
Don't you fear the winter, I will keep you safe  
And warm  
Don't you fear the winter, come with me  
There'll be no harm

Flying high, setting signs  
We got the future in our veins  
But still a long way to go

All we know has lost its size  
If you're looking down from space  
Your problems are unreal at one blow

We are the only truth?  
How can we be so smug  
Like a child playing God...  
I wish I knew  
Is it still far to go - Invisible horizons

What is behind  
The picture in my mind - Invisible horizons

I'm just waiting for the moon to come and set me free  
And I'm just waiting for moonlight and then my eyes  
can see  
I'm just waiting for the moon to come and set me free  
Because the moonlight can release me from my misery

Enough is enough - You can control  
Enough is enough - Those who don't know

Faster - This world is heading straight into a big  
disaster  
Tell me, when will it reach its end?  
Bigger - When moneymakers stamp our souls with  
technology  
Believe me, this got to reach an end  
All this misery in our minds will break free, you will  
see...

Since a while I thought 'bout leaving here  
I can see no way to get it clear  
Under you I feel misunderstood  
In this respectable neighbourhood

Hey, don't look for me no more  
'Cause I won't be coming home

I'm just a solitary man  
I'm gonna leave you now alone  
Well, I'm a solitary man  
I feel so strange here, do you know?

Nevermore - Never evermore...
