Music by P. Wagner, S. Efthimiadis / Lyrics by P. Wagner

Plans I have made to build it up from this state.  
Always moving, never stop, though the answers are  
made  
Â'bout the future, Â'bout the past,  
where I come from, what will last.

Try to delay things that lead you astray.  
But society sucks you out, leads to early decay.  
If I will, if I won't, a decision that I could not flee.  
I prayed it leave me be - the icecold hand of destiny.

Everything's right, it seems the future looks bright.  
But there's always factor X that leads the tumbling  
dice.

If I will...

Play for future, play for past,  
where you come from, what will last.
