"If You Think Of Me"

For everything I've done I've never once regretted
For everything I loved I gave all my heart
But I'm still haunted by a fate unexpected
A distant memory of lovers forced apart

If you think of me
Give me a sign, light up the sky
I will be waiting
Love is forever, there's no goodbye

For we were meant to be eternally together
You changed my life, and I miss your tender touch
Trying to escape, to forget you, but I'll never
If you remember me I'll miss you oh so much

If you think of me
Give me a sign, light up the sky

If you think of me
Give me a sign, light up the sky
I will be waiting
Love is forever, there's no goodbye

If you think of me
I'll find the strength to carry on
You are the reason
When all is dark I'm holding on

If you think of me
Reach out and hold me
Angel of mine, don't leave me alone
