Hey do you realize I ain't with the weak without
dropping
the record, right?
I guess I'm focused

They ask me where I'm gonna take it, I told em real far
These other rappers twinkle baby I'm a real star
Better know that, you say you got bars when you flow at
And since I started buzzin you questionin where you
hole at
Damn, saw it baby I ain't mean to call you watch your
name
But so is life when your pussy jump over diamond chain
Without stane whenever you see me step out
And all I do is writing now keep me from getting left out
All these rappers reaching I'm tempted to bring your
rough out
Bosses is checking for me like secretaries will bust out
Necessary I am that, am I defend that
Yeah this people my heart I'm just hoping to gettin in
back
Maybe creating impact tell my city I made it
My niggas thinking I'm lucky
I simply tell em I prade it and it came true
Fuck a new friend kept the same crew
Doing everything this up twitter said I can't do,
Can't do stuntin my coach raggin like what up,
My exe I'm a dick so it's only right that I nut up
But I'll be back in some shit that you probably can't
spell
Said you could do better than me well baby I can't tell
This ain't jail so tell me while we ain't fuckin niggas
Without a single somehow I'm cashin and double
figures
Compete a giga you probably thinking I ain't shit
But even hover be crazy they say I can't spit
My rain see somewhere must all the greatest
My nigga hot as hell on first on the devil playlist
I am aylist with the flow and Vegas with the watch
Like pussy the uncle Lu gotta wait to see me poppin
I'm gone

Yeah
Take it to the moon, oh
That's right

Take it to the stars
