This is an anthem for your love
This is the thing that wont go away
you left me here this way

We were barely in our teens
We would like to play all those games
we never should have played

(bridge)
Fall asleep with me
wake up in a brighter day
Its all about being that thing

oh(x16)

(I just,i wanted to know you)

This is an anthem for your love
This is a thing that i'll always save
I'll take it to my grave

We knew right here from the start
We could never live our life this way

(bridge)
Fall asleep with me
wake up in a brighter day
Its all about being that thing

But now you leave me all alone
Another Day In Misery
This is a callout for the things you'll never be
Leave me all alone another day in misery
It's all about being that thing

(breakdown)

We go Around 'round round round
Round Round Round Round (x6)

This is a callout for the things you'll never be

Leave me all alone another day in misery

This is a callout for the things you'll never be
This is a callout for the things you'll never see

Leave me all alone another day in misery
It's all about being that thing
