We are not (x3) statistics populated by goverment  
authorities  
Raping minds (x3) and building building kids to..

Ruin your make up and wash it down  
Tear your magazines, don't join the crowd  
We are not a part of what they say  
We are the majority

A million questions running out our mouths  
Oh by the way (by the way)  
No one seems to care  
Oh by the way (by the way)  
By the way  
Won't you just sell yourself to misery  
Cause talk is cheap and so are we

media (x3) well it's spinning it's spinning  
It's goddamn out of control  
Don't sell out sell out sell out  
There is no truth in what they..

Don't rape her mind  
She's so beautiful  
My tender girl, she's so untouchable  
Protect yourself and just close your eyes  
We are all american eyes

A million answers running out our mouths  
Oh by the way (by the way)  
No one seems to care  
Oh by the way (by the way)  
By the way  
Won't you just sell yourself to misery  
Cause talk is cheap and so are we

Sell yourself for what you need  
The way you live your life  
You're never gonna be free

Cause we're in love

We're so, so in love  
With the girl with the broken heart  
Who's the girl with the broken heart  
We're in love  
We're so, so in love  
With the girl with the broken heart  
Who's the girl with the broken heart  
We're in love  
And she bleeds on me

A million answers running out our mouths  
Oh by the way (by the way)  
No one seems to care  
Oh by the way (by the way)  
By the way  
Won't you just sell yourself to misery  
Cause talk is cheap and so are we

Sell yourself for what you need  
The way you live your life  
You're never gonna be free
