Woman singing in hindi

Stand by here we go again
Just a little bit let me know again
Ain't nobody special girls i'm just a friend
I bet you can't recall my name
I think about you everyday
"4/7 girl in every way
Try to move on but what can i say
No one else can take your place.

I guess i done this when i should have done
I tried to be smart but i want you so bad
Have you ever needed what you never ever have
i just cant get enough enough enough
Just when it looks like im gonna get close
my lips mess up and my words dont flow
I just cant wait till you freakin me frequently baby
i just cant get enough enough enough

Oh no i should have spoke up
seeing you with someone now im choked up
like i was sleeping and should have woke up
I aint gonna let it end like this
Word is out that you broke up
you will be found keep your hopes up
ill be aruond and and babe you know what
Im bringing what you cant have

Chorus

I guess i done this when i should have done
I tried to be smart but i want you so bad
Have you ever needed what you could never ever have
i just cant get enough enough enough
Just when it looks like im gonna get close(yo)
my lips mess up and my words dont flow
I just cant wait till you freakin me frequently baby
i just cant get enough enough enough

She pull up in a black out BM

chorus

I guess i done this when i should have done
I tried to be smart but i want you so bad
Have you ever needed what you could never ever have
i just cant get enough enough enough
Just when it looks like im gonna get close
my lips mess up and my words dont flow
I just cant wait till you freakin me frequently baby
i just cant get enough enough enough
