A world with no more night
When you talk to somebody
At least for most of the questions in my heart

Chorus:

Heart

Across the water across the deep blue ocean

Walk

Like a river flows surely to the sea

Verse Two:

When i will be on bed fighting for cancer

This feeling inside me

When my love holds my hand and takes me to another world

I will feel a glow just thinking of you

Chorus Two:

Heart

Across the water across the deep blue ocean

Walk

Like a river flows surely to the sea
