(And now with the following collection of...)

I'm above everything else  
Saved the ones that shouldn't be  
Hold onto them all so you'll  
Find yourself away from me  
Our lost faith strung out on a line  
My most empathetic dreams of you  
The sorry excuses on which we dine  
When all my fears tell me it's true

Borrowed dreams of some imagined future  
All wrapped up inside this borrowed hope

Don't manipulate the most  
Beautiful thing you'll ever know  
To the extent of saving your  
Ragged torn out sickly show  
Holding my head above the fold  
Can't decide which side I want  
I buried everything so deep in the cold  
Now I stop inside of the lies I flaunt

Borrowed dreams of some imagined future  
All wrapped up inside this borrowed hope

Pull it all away from me  
Show me all the things I can  
Never be allowed to see  
It's all so far away  
If you must have faith in someone  
Trust that I'll push you away  
If you must have faith in someone  
Trust that I'll push you away

What am I if  
The flies all stick to me?  
What am I if  
The maggots live in me?  
What am I if  
I'm closest to the stink?

What am I if  
You're all that's real to me?  
What!  
Am!  
I?

Teach me  
Just show me  
Break everything  
Flush it away  
Teach me just show me  
The starts already over  
Break everything and  
Flush it away
