I'm chewing my tongue  
It makes it so numb  
My lower coverings  
House many children

So many piercings  
I can't stop bleeding  
My fucking parents  
After school meetings

So fucking different  
I am so cool  
So fucking different  
We're all the same  
So fucking different

So many tweakings  
I can't stop peaking  
Trails are all I see  
I can't help being me

I've got not future  
I won't even try  
I'm failing at life  
I get high and then I die

I am so cool  
So fucking different  
I am so cool  
So fucking different  
We're all the same  
So fucking different  
So fucked up we drool  
It's all the same

(Do you wanna elaborate, or do you have any last thoughts?)
