Burn the bed
Consummated
Rest the head
It just holds us back now
And still she keeps on looking
Of course
Of course
And now there's nothing I hate as much

Wet the lips
And shut your pretty mouth
Use the kiss
Tommorrow fails to exist
And still she keeps on looking
Of course
Of course
And now there's nothing I

It all surfaces in this light
It all surfaces in this light
It all surfaces
It all surfaces

Words under my breath
Taking my time
Breaking your smile

Feed the wish
And let it flourish
Head for shore
And let me haunt you
And still she keeps on looking
Of course
Of course
And now theres nothing I hate as much
And now theres nothing I hate as much

I will sleep
Throughout the infection
Fast asleep
Where nothing can find me

Words under my breath
Taking my time
Breaking your smile
Everyone goes away
I can't even try
I watched you slip away

Words under my breath
Taking my time
Breaking your smile
Everyone goes away
I won't ever try
I watched you slip away
