

American Headcharge

"Never Get Caught"

Visit "[Never Get Caught](#)" on MotoLyrics.com

Is it possible for you to shut the fuck up?

Ah!

(And you're all equally worth it)

Ah!

(And you're all equally worth it)

Ah!

(And you're all equally worth it)

Ah!

(And you're all equally worth it)

Follow me now and I will drown you

Fill you full of reasons

No windows

I'll take you

To the dirty place that I love

Slipping on messes

You made when I hit you

Makes me more excitable

I'll never get caught

I'll never get caught

Pull it tight I'll see right through it

I'll never get caught

I'll never get caught

Cradle the difference in front of your fist

Force it down to bring it back up

And make them listen one more time

You cradle the difference in front of your fist

Force it down to bring it back up

And make them listen one more time

You are the mother fucking antichrist!

Ah!

(And you're all equally worth it)

Ah!

(And you're all equally worth it)

Wrapping you up in an American flag

I fuck you for the glory

No complaints from my friends

They keep their fucking mouths shut
I couldn't care less
About the way that you see me
Soothing I will never be
I'll always get shit
I'll always get shit
For acknowledging pervisity

I'll never get caught
I'll never get caught

Cradle the difference in front of your fist
Force it down to bring it back up
And make them listen one more time
You cradle the difference in front of your fist
Force it down to bring it back up
And make them listen one more time
Cradle the difference in front of your fist
Force it down to bring it back up
And make them listen one more time

Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught

Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
Never get caught, Never get caught, Never get caught
