Freedom is everything
Resolve impossible
You prayed for rain
Ignoring the flood

You took me with you
To heaven and back again
Bleed to remember
That everything ends

Blind and looking forward
I can see the shapes
But can't make out the faces
Still they come in close
Excuse this ugly shell my
Gaping holes drip pride
A systematic shutdown
Of diminishing returns

Nothing gets easier gets
Nothing gets easier gets

I held you down
On the day of the lord
31 marks like the day
I was born

I called you beautiful
Before I knew you
Watch me destroy it
And set myself free

Still so dead and frozen
We all survive it
Restraints brought back for colour
The most insulting guilt
Such sweet attractive layers
Let me remove them all

Nothing gets easier gets
Nothing gets easier gets

Bring me home
Let me down
Send me back
Collecting the phases

The less I give
It's easier
The more we give
It's nothing

No!
Nothing gets nothing gets!
Nothing gets nothing gets!
Nothing gets nothing gets!
Nothing gets nothing gets!
