Stink filled spasm  
Deep in a colostomy  
Bag I like being trapped inside  
The plastics wearing out  
Red and perfect  
Her legs spread out in front of me  
They're so open they make me sweat  
It's my lubrication  
Recent findings  
Say circumcise the abstinent  
And make it hard for them to breathe  
I like to make you lie  
Dropped and so ill  
Steeped in my misogyny  
My shaking hands are in the skin  
I've gone to far too soon

You look so seamless now  
You look so seamless now  
You look so seamless now  
You look so seamless now

Machine

She stared at me  
Thinking I was slave to it  
Her legs tied up  
Apart for me  
It feels so good inside  
Now I'm thinking  
Who's this that lies under me?  
And needs a piece of my respect  
You make me so sick  
I'm crawling, broken  
My face is cringing to see  
Figures drawn inside of you  
Succumb succumb succumb  
Sickness fittings  
Procured this fascist medium  
But now I'm laughing in your face  
You lie

You lie  
You lie

You look so seamless now  
You look so seamless now  
You look so seamless now  
You look so seamless now

You look so seamless  
Now you look so seamless  
Now you look so seamless now  
You look so seamless now

(I must admit...Peverts...Pleasure of...  
...I must admit, I must admit)

Take me, take my life  
Take me, take my life  
Take me, take my life  
Take me, take my life  
Take me, take my life  
Take me, take my life  
Take me, take my life  
Take me, take my life

Stink filled spasm
