And now you show me

Stature

Show me (Stature)

Show me (Stature)

Show me (Stature)

Show me (Stature)

Show me (Stature)

Show me (Stature)

Beautiful disease

Trying to stop those fleas

Resist complacences

For what you seize

Beautiful disease

Trying to stop those fleas

Resist complacences

For what you seize

Sinister laughing in back corners of my mind

Provides my sustenance

A no handed attempt

A rude man at the front

The right bowed to but dead

Accomplished undertone

Shoveling to the def

Out of your other lips

But making me happy

Three in the front room

Are fucking on top of my bed

Uplifting opening

Old scars thought of as healed

Say your prayers for your hate

A nympho to yourself

(Let's fuck)

Stature

Show me (Stature)

Show me (Stature)

Show me (Stature)

Show me (Stature)

Beautiful disease  
Trying to stop those fleas  
Resist complacences  
For what you seize

Beautiful disease  
Trying to stop those fleas  
Resist complacences  
For what you seize

Sinister laughing in back corners of my mind  
Provides my sustenance  
A no handed attempt  
A rude man at the front  
The right bowed to but dead  
Accomplished undertone  
Shoveling to the def  
Out of your other lips  
But making me happy  
Three in the front room  
Are fucking on top of my bed  
Uplifting opening  
Old scars thought of as healed  
Say your prayers for your hate  
A nympho to yourself  
One, two

And now my face it breathes my lies  
And my lies they make me drown

(You get nothing! You lose! Good day Sir!)
