This most unwitting occurrence is indeed about you
So take it or chalk it up
All the others before me can give what I doubt

Take what I've taken, yeah
Take what I've taken, yeah

The three of threes
Professes you to me
Challenging and the favour will be
Paid in full pounds of flesh
In perfect dress

Take what I've taken, yeah
Take what I've taken, yeah
Take what I've taken, yeah
Take what I've taken

This most unwitting occurrence is indeed about you
So take it or chalk it up
All these others before me can't doubt
What's killing you wells from inside
Atonement for the waste
Pleasure in one more accolade
Prehensive doubt
Prehensive

One day I know when I see you
Far from these days that beat us
Far from my habits perfect prison

(One day) One day I know when I see you
(One day) Far from these days that beat us
(One day) Far from my habits perfect prison

Take
