Torn and departed, we say that  
No matter what we do the people will hate us  
Colder than my pitiful shoulder  
Drowning out the sounds that make you older  
Because of the wits you've learned  
And mastered over years you can make me burn  
So what if there is no sky  
Bleeding from my ears and I don't know why

I cannot breathe anymore  
I cannot see anymore

We are the nation, that kills kids  
To be better than the cause in the first place  
Hating is the word that speaks  
To ripen up the souls that make us feel asleep  
Say it, I wont replay it  
To deafen out the sounds echoing in my head  
Chip off the old block  
Make it sound all good till the click of the glock

I cannot breathe anymore  
I cannot see anymore  
There is no time anymore  
And I wont lie anymore

Tell myself  
To not let go  
And heal my sins  
That no one knows

I cannot breathe anymore  
I cannot see anymore  
There is no time anymore  
And I wont lie anymore  
I cannot breathe anymore  
I cannot see anymore  
There is no time anymore  
And I wont lie anymore/PRE
