You and I are totally different
We share only in covenant
There is only one truth by me
And that (you may never see)

Listen to the sound of the hollow
Bullet point inside of the should

There will be no more lies
Inside of my short demise
I know better than to let you go
And some people dont think so

I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)

There is something inside me
Something there that no one sees
A place so dark that its only cold
And you (you wont see it you will die alone)

Listen to the sound of the hollow
Bullet point inside of the should

There isnt one thing you know
That would make me go
All of this but no more that
I will make you brains go...splat!

Something over nothing
Nothing inside something
I will never hurt you
But I will burn you

I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)

I walk away, (I walk away)
I walk away, (I walk away)
I walk away, (I walk away)
