"To The End Of My Days"

Visit "[To The End Of My Days](#)" on MotoLyrics.com

Demons surround me, Heaven profounds me
Telling my story, chapter by chapter
I'm burning my pages, every second
And we live for the ones, who write the book

Show me the way every day
What is going on?
Show me the day when it goes away
And I will be happy forever

Piece by piece, we all crumble and fall
Laughing at those, who cant even crawl
Those are the people, who show me the way
The ones who take me, to the end of my days

Show me the way every day
What is going on?
Show me the day when it goes away
And I will be happy forever
Show me the way every day
What is going on?
Show me the day when it goes away
And I will be happy forever

For I cannot crawl
For I will stall
For I cannot be
For I will see

Show me the way every day
What is going on?
Show me the day when it goes away
And I will be happy forever
Show me the way every day
What is going on?
Show me the day when it goes away
And I will be happy forever
