You're not who you say you are
You're not who you say you will be
You're not who you say I lived for
You're not the one who will beat me

Scared, alone, hungry, but on my own
(I never lived to see these face, crowding my only mirror)
Destroyed, no home, careless, still on my own
(I wasn't born to see you, and live to see me kill you)

Oh! There are no open pathways
For me to skip on
Oh! There are no open pathways
For my blood to drip on

You're not who you say you are
You're not who you say you will be
You're not who you say I lived for
You're not the one who will beat me

Betrayed, and sewn, my lips, so that I don't speak
(I never wasn't good enough, to be stuffed into a trunk)
Narrow, and blown, my eardrums, so I cant hear myself
scream...Yeah!

Creeps who think they us all for granted
The ones who live to see are hands tied
They round and round watch my eyes fade
So then we can find out just why they lied

Oh! There are no open pathways
For me to skip on
Oh! There are no open pathways
For my blood to drip on

You're not who you say you are
You're not who you say you will be
You're not who you say I lived for
You're not the one who will beat me
