I got caught out in the rain...  
With you, with you...

I got caught out in the rain;  
(Never fall in love again,) with you, with you, with you...

It's been about a year since we last spoke,  
And every day I thought about you, thought you oughta  
know, uh-huh;  
What do I do with this fire inside of me? Always been  
you, baby, I'm desiring...  
I know you're no good for me, and I know you're like a  
drug, it's killing me;  
But I don't wanna get my fix - No, baby, I don't wanna  
let you in, no-oh

I got caught out in the rain (the rain);  
Never fall in love again, with you, with you, with you...  
I got caught out in the rain (the rain);  
Never gonna love again, with you, with you, with you...

Started in October, by June it was over;  
Said you're still in love, but you were tryna get over:  
You think of me daily, picture our babies,  
Said you're tryna change, and that you wanted to save  
me...  
The heat of the summer was pulling me under;  
I knew I knew better, but wanted to rediscover  
Familiar feelings, and sexual healing...  
But when I hit the water, I was stuck in the deep end...

Doctor, doctor, something wrong with me;  
Again and again, still the same boy hurtin me;  
I open up, let him in, it's a torturer...  
(The sickest part is that I think I'm liking it...)  
Doctor, doc, why don't he leave me be?  
He got a knife in my back - stop turning please!  
Cause I can't take no more this time;  
Never again, go on get out of my life...

I got caught out in the rain (the rain);

Never fall in love again, with you, with you, with you...  
I got caught out in the rain (the rain);  
Never gonna love again, with you, with you, with you...  
With you, with you, with you...  
(The rain, the rain...)

You tell me you love me, you la-la-la-love me;  
Boy, you don't even love you - how'd I expect you to  
love me?  
Was good til we lost it, I'm getting off topic...  
The story hasn't ended, but just before we drop it:  
I called on the weekend, you said you were sleepin';  
I wanted to come over, wake you up, or just creep in...  
Was sunny and shinin', my bike I was ridin',  
Raced over to your house faster than a bolt of  
lightnin'...  
Parked on the sidewalk, but just when I looked up,  
I saw another shadow was inside of your window;  
Scared to look further - as soon as I saw her,  
The sky turned black heard a roar of thunder...  
Stood on your driveway, the hair pressed to my face,  
Tried to recover, my knees were like rubber...  
Soaked thru my T-shirt, I thought it was tears, but,  
The clouds closed in, and they pulled me under...

I got caught out in the rain (the rain);  
Never fall in love again, with you, with you, with you...  
I got caught out in the rain (the rain);  
Never gonna love again, with you, with you, with you...
