Flipmode the Imperial

You know you love it when you hear us on the radio
Go cop the joint and play the shit up in your stereo
Or in the streets up in your Jeeps or in the disco
And if you want the fly shit, my nigga here we go

You know it's Digga lookin' pretty in the video
With Bus-a-Bus up in the cut but you don't hear me
though
Just when you think we done we hit y'all we got plenty
mo'
Blow

It be's the little mama, lip gloss and eyeliner
The only shit poppin' like White Castle or the Donna
Rah Digga make the joints that the DJ's blast
Ghetto diva in the Source with the 3 page ad

Watch as the hood rat messiah climb swiftly
Labels scarred to death to let their artist bomb with me
'Cause you can send your thuggest MC and watch me
son 'em
The ruggedest bitch, don't even rhyme about gunnin'

Got joints circulating like them old karate flicks
Buncha Rah Digga shirts on some big body chicks
Throw my shit in your hoopty or your luxury trucks
And make the quickest turn around like 'dro for 20
bucks

And I'll still be the greatest if this rap shit fail me
Back to jackin' bootleg flicks from out the deli
Livin' off the interest
Sippin' on Tequila with my logo on the side
Of fuckin' 18 wheelers

Ay yo yo yo
Raze and dazzle niggas like y'all
Spread niggas like you and dismantle niggas like y'all
I got the thing that'll majorly handle niggas like y'all
Fight y'all, bust a semi and cancel niggas like y'all

I know some joke niggas who love to hassle niggas like
y'all
Talk, and fix and simply dance on niggas like y'all
Trample niggas like y'all
Make examples outta niggas like y'all
Grit their teeth and cock the hammer up inside the
dance hall

Thugs, here's another sample for niggas like ya'll
Or for the ones who pass and light a Roman candle for
niggas like y'all
Fight for niggas like y'all
Grad the mic from motherfuckers like y'all
Blow the spot in the night for all my niggas like y'all

My get high niggas, I blaze for niggas like y'all
Stink the spot up with 'dro now spray the fuckin' Lysol
You know we be the ultimate
We fuckin' with some other shit
And when we hit y'all
Yes, we sit and watch ya'll niggas ride the dick

Aiyo, clap and slap up a nigga for talkin' lotsa wack shit
While I roll around with the Harriet Thugman of this rap
shit

Black chick with intellect, who wanna match wits?
Write my own rhymes so can't no nigga tell me jack shit

Master shit, Flipmode exclusive across the map and
shit
Presenting the first lady of the squad so give me dap
and shit
Sayin' peace when you see me, play the role like Ally
Sheedy
And I ain't gon' join ya cipher if the weed's too seedy

Yo, make sure you see what we doing now, put on your
binoculars
Then I gas ya like a paid latino down at Banco Popular
Rah Digga underground and gon' always blow the spot
for ya
Longest runnin' shit since the phantom of the opera

Bus-a-Bus, going down as one of the greatest spoken
philosophers
Holding a 12-shot semi with a little red dot for ya
First and only female unmatched by anyone
Rip it from old school to the next millenium
