Some people make music for a moment
I make music for a lifetime
And now that you're tuned into the frequency
I'd like to welcome you
I go by the name of the R&B hippie, Neo-Soul rockstar
Raheem Devaughn
Aaa turn me up
And this music is for the people and
And I hope it inspires you to love
Love
And if you just got off your cell phone from calling
about 20 people lettin' 'em know it's finally here, well
that's love
Yeah, that's love
And if you conceive a baby wit' ya old lady to track #7
tryna find mo' betta ways to find that four letter word,
well that's love (that's love)
That's love
And if you buy five more copies every time the holiday
rolls around cuz they make good stocking stuffers (Ha-
ha), well that's love
That's love (Yeah)
That's love
That's love
