### "My Heart"

Visit "[My Heart](#)" on [MotoLyrics.com](http://MotoLyrics.com)

(Verse)

You know that I was far from perfect  
But you were no angel  
Keep pointing the finger at just one of us  
I probably shouldâ€™ and I'll give you

(Verse)

And now that we've closed this chapter  
I guess it's the end of the road for us, the road for us  
I thought that I'll be dying on the inside  
Hollow on the inside soâ€™

(Chorus)

Send me back my heart  
Send me back my heart  
Pick up all those broken pieces  
And what's left of my pride  
Send me back my heart

(Verse)

Where's the sympathy  
Bet you got no remorse  
I'm lost at sea  
Don't know my course

(Verse)

Your sweet friends ain't live from the back track baby  
I can't even try  
I feel so empty within  
Like a man made of tin, please

(Chorus)

Send me back my heart  
Send me back my heart  
(I need you toâ€™ I need you toâ€™)  
Pick up all those broken pieces  
And what's left of my pride  
Send me back my heart

(Verse)

You nagged, I cheated,

She texts, you read it  
I lied you believed to not feel defeated  
Now you're at your breaking point, everybody got one  
Opinion's on me and you, everybody got some  
But she can't keep a man and she won't leave a man  
And you got Balenciaga bracelets for either hand  
But the damage done - can't patch it up  
Those bandaids couldn't heal the wounds fast enough  
Try to put it all aside and get back to us  
But we couldn't move forward with that lack of trust  
Time to pack it up, let's be on our way  
We had a good run, remember the better days  
Split it down the middle, but on second thought  
You can keep it all, just give me back my heart  
Split it down the middle, but on second thought  
You can keep it all, just give me back my heart

(Bridge)

You said that you'll never, never leave me  
That I was the one and you fled, you ran like a thief  
from the run  
Please refund me back

(Chorus)

Send me back my heart  
Send me back my heart  
Pick up all those broken pieces  
And what's left of my pride  
Send me back my heart

Send me back my heart  
Send me back my heart  
Please, send me back my heart  
Send me back my heart
