It's a beautiful day
Almost as beautiful as you
Today my dreams come true
My soul mate

Verse 1:

Never knew a lady like you existed on earth
When we met on my life I fell in love
So I am here with you on this day to say
To form a love
Yes you may have my heart

Chorus:

You're my soul mate
With this ring I pledge to be with you
(2 x's)

Verse 2:

So glad you are my lady my one and only lady
You make me feel that I have the world baby girl
My life without you is unheard
Girl I give you my world
For all the days of our lives
You will be, you will be yeah yeah

Chorus:

You're my soul mate
With this ring I pledge to be with you
(2 x's)

(Talking)

As I stand here today before you
In the name of love
I vow to respect you, protect you, love, cherish
For all the days of both our lives
And beyond the day
Beyond the day that the sun goes down

Repeat Chorus Until End Of Song
