Yo peace and love  
I wanna tell y'all about  
The beautiful love experience  
(Hope you have time, hope you don't mind)

To my cousin I'm hoping you can hear this rhyme  
When I ride through the bricks, yeah  
I think about you all the time  
That cold day I got that phone call, it plays back in my  
mind  
I can still hear your mother cry

Well, at least I can say  
I had my first experience of love through you

And to my first girlfriend I know you probably married  
now  
Reminiscing on our prom date  
The way I did you yo was kind of foul  
But I guess I had to wise up so now I know better now  
(But at least I can say )

But at least I can say  
I had my first experience of love through you  
Like how it feels when it comes  
What its like when it leaves

So to the woman that betrayed me  
I think it's unfair how, how you chose to deceive me  
I thought that was my child  
Now he's forced inside for now

But at least I can say  
I had my first experience of love through you

To the faith I've lost  
(Faith I've lost)  
For the friends I've gain  
(The friends I've gain)

I'm thinking while I'm questioning  
Change is a good thing

'Cause with dead weight you can't travel light  
(Can't travel light)  
Besides I was born to fight so I'm gon' be alright  
(Born to fight)

But at least I can say  
I had my first experience of love through you  
Like how it feels, when it comes  
What it's like when it leaves

To my moma, to grandma  
To my sister  
(To my sister)  
And say goodbye  
(To my family)  
After departure day  
And my friends told me what happened oh

But at least I can say  
I had my first experience of love through you  
(I've experienced love)

I've experienced the love experience  
You should experience the love experience  
We are all, all experiments of the love experience  
So just experience

We all should experience  
(La, la, la, la, la, la, la, la, la, la, la, la, la)  
Experience, experience

I've experienced the love experience  
You should experience the love experience  
We are all, all experiments of the love experience  
So just experience
