(Verse)

I'm a desperado for life
One bullet away from freedom
And ain't a bounty too high
Ain't a drop too point

(Bridge)

From town to town, land to land
Man down, man down, man down
It's gonna be a lot of blood on my hands
Man down, man down

(Chorus)

Hey hey hey he
I'm a bad man
The only thing I'm bound by is my heart
My heart, my heart
And my love for her
I'm unchained, I'm unchained
The only thing locked down is my heart
And my love for her

(Verse)

See you gotta fool around in the chamber
I rob a robber with a trigger
And my life I've been whipped in chally for my black
skin called the in
It's time for the big bang bang

(Bridge)

From town to town, land to land
Man down, man down, man down
Stand down or build up a bridge
Man down, man down

(Chorus)

Hey! Afraid to be a free man
The only thing I'm bound by is my heart
And my love for her
I'm unchained
The only thing locked down is my heart

(I got my finger on the trigger)
And my love for her
I'm unchained, I'm unchained

(Verse)

Round these parts they call me Django
And this is my revenge
I want my lady love, my freedom
I reckon I should tell you again
Round these parts they call me Django
And this is my revenge
I want my lady love, my freedom
Don't make me have to say it again
I'm unchained

The only thing I'm bound by is my heart
I got a bullet in the chamber

I said around here they call me Django
I want my freedom, I want my life
I said around here they call me Django
I want my freedom, I want my lady

I'm unchained
I'm unchained, I'm unchained
I'm unchained, I'm unchained
The only thing I'm bound by is my heart
And my love for her
I'm unchained
The only thing locked down is my heart
And my love for her
I'm unchained
