"Colour It In"

Let's fight the men of science
Cold, calculating, Desperate Dans
The sex fiends and angry hippies
The schnooky schnooks and the glamour pusses, and
the
Box men and bin men, yes men and no men
And the no way nevers
And the no way nevers
And the no way nevers

Bright young things
Sugars and spices, slices and dices
And the fools

Bright young things
Sugars and spices, slices and dices
And the faithful's found a way to colour it in
They found a way to colour it in
They found
Got to find a way
Way
To colour it in
They Found
Got to find a way
Way
To colour it in
Found
Found a way
Way
To colour it in

We'll blind people with your signs (x3)
