"Forever I've Known"

Visit "[Forever I've Known](#)" on MotoLyrics.com

I'm a child to your voice
To the sound though it can eat me alive
Ten toes and ten fingers
Any sense that I've had in this life
Won't you stay a while, kill some time
You know that I'll make it easy, easy and I know

Know it wouldn't be forever
Forever I've known nothing stays forever
Couldn't you still try

I want to see you
It's not good enough to have you here in my head
Want the spray from the sea
Come on, I'll make it easy and I know

Know it wouldn't be forever
Forever I've known nothing stays forever
Couldn't you still try [x9]

Things I've said in a rage can still be unsaid
Took the cold from my bones
Took the cold from my head and I know

Know nothing stays forever
Forever I've known nothing stays forever
Couldn't you just lie [x8]

I'm a child to your voice and I know
Know nothing stays forever
Forever I've known nothing stays forever
Forever I've known nothing stays forever
Forever I've known nothing stays forever

And I know
Know nothing stays forever
Forever I've known, forever I've known, forever I've
known
