There's a devil outside of your window and it's waiting  
for a piece of you  
And you're just so beaten down these days there's  
nothing that you can do  
Well as soon as the sun will shine again while the night  
just begs for more  
Your purgatory waits for you when you walk outside  
that door  
While the dead pasts by on the sidewalk as hollow as  
they come  
And I cannot see a sign of light when cornered where  
they're from  
When they seem so unaffected by these streets that  
flow with pain  
There's no love on our way and I know I feel the same  
Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down  
There's an angel next door in the ballroom arms open  
full of grace  
Well I did detect strong spirits there in my glass I found  
the same  
Well the world don't seem so bad no more when you?  
re basking in her light  
For a moment we are living while the dead can't stay  
outside  
Well I'm just hooked on a feeling I'm flying on the  
wings of escape  
While the neon lights protect me while reality's kept at  
bay  
Well I hope to just don't matter when there's angels in  
your eyes  
I belong and feel needed in a world that's filled with  
lies  
Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down  
  
Lay your head down

Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down  
Lay your head down
