Gotta get away from you  
Gotta make a change  
I do  
In too deep to lie  
It's true  
If I'm gonna live  
Here's what I've got to do

Get over that feeling of wanting  
Feeling and longing for you  
Ignore the eerie haunting  
That creeps and blazes through  
Extinguish the fear that's stalking  
Drawing me black and blue  
Slay the abominable dragon that's caused my mind to  
bruise

Deliver me of love ...

Caught up in the maze of you  
Tangled in your web of doom  
Will these threads untie and loosen  
Even though the silk and splendor, it tends to soothe

Get over that feeling of wanting  
Feeling and longing for you  
Ignore the eerie haunting  
That creeps and blazes through  
Extinguish the fear that's stalking  
Drawing me black and blue  
Slay the abominable dragon that's caused my mind to  
bruise

Beautiful  
Symbolic  
Majestic twilight  
Orbit the galaxy transcending time  
Disappearing hours go by, go by  
Shifting and melting into nighttime nighttime  
Escape to love, escape to love  
Make way for love, make way for love

In space my love, in space my love

Deliver me of love ...

... of love
