There's no other way to say it baby  
I gotta let you know just what I feel  
We've had better days than what's been happening  
lately  
I don't wanna walk away  
But I gotta be real with you  
And I've heard you say you're gonna change  
But I'm afraid that it's too late  
It's too late  
It's too late

You're more than just a friend to me baby  
And I won't do you wrong no matter what's going on  
And though I feel the need to leave it pains me  
Right down to my bones the hurt is so strong  
And I've heard you say you're gonna change  
But I'm afraid it's too late  
It's late  
Oh, I believe that it's too late  
It's too late  
It's too late

Chorus:  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do

I've spent days and nights contemplating  
Over you and me and the road I'm taking  
And I hope in the end that you won't hate me

I know you feel the same if you'd only face it  
And I've heard you say you're gonna change  
But I'm afraid that it's too late  
It's too late  
Oh, I believe that it's too late

It's too late  
It's too late

Chorus:

I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
(That I can do, yeah)  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
(I can do)  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
(I can do)  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
I'm giving you the best of me  
The best it's true  
But I can't get the best from you  
So I guess goodbye is the best thing I can do  
(The best that I can do)
