Verse 1

In my eyes you're so beautiful
So magical
My heart is beating repitiously for you
I... gotta find that special place that beholds the love
That settles in your nookie heart of sweetness

Chorus 2x

I want you to know
You gotta know
You're the only one for me
Your love is all I need

Verse 2

I gotta make it known you lookin' like a queen
With ebony treat me nice
In the sparklin' diamond-smile that draws me near
Can I... slide into your world?
Where there's paradise
And taste the rivers that flow like sugar through your
nights
Chorus

Break

I wanna be your troll
To your duchess
I know the leaves are blank and seen
The grass has weeds

While indelin' your assist
Has got me high...
Chorus
