You don't have to worry
I am your slave
Treat me right & you've got it made
That's how I love you
Ain't it nice to be loved that way
Just say you'll love, lovin', keep lovin' me
Every night & every day

You don't have to beg, borrow or bum
When you need attention
I'll give you some
That's how I love you
Ain't it nice to be loved that way
Just say you'll love, lovin', keep lovin' me
Every night, every day

Try me
I'll prove to you
I will do everything
I said I will do
That's how I love you
Ain't it nice to be loved that way
Just say you'll love, lovin, keep lovin me
Every night, every day
