"When You Were My Baby"

Visit "[When You Were My Baby](#)" on MotoLyrics.com

We walked alone in the rain and lightning When you
were my baby So much in love it was almost frightening
When you were my baby Everybody called you a fool
When you wouldn't play by the rules Everybody was
wrong. Oahu. There was nowhere to run away to When
you were my baby Everybody began to hate you When
you were my baby Time wasn't on our side Me and my
foolish pride Then I said goodbye. Oahu. Now you've
gone away and left me on my own Now I'm walking
down the highway all alone On a rainy night and crying
out my eyes We were young, yeah, but old enough to...
When you were my baby And I just couldn't help but
love you When you were my baby Just the way you wore
your hair And the way you just didn't care And the
way you danced do do do, etc. When you were my baby
